

# ADE on Roe v. Wade

THE ALLIANCE OF DOCUMENTARY EDITORS stands in solidarity with the fight against the United States Supreme Court's decision to [overturn Roe v. Wade](#).

People who can get pregnant are a significant part of the post-production and documentary workforce. Their rights being taken away will impact our industry profoundly.

We acknowledge all the films that have been made on this issue from which many of us have benefited. We must honor their protagonists, their crews, and their fight.

We stand for a more equitable documentary industry that uplifts women, trans, non-binary and BIPOC communities. The right to abortion is an essential part of this mission. Following the [Latin American Green Wave \(Marea Verde\)](#), we demand access to safe abortions in the US and the world.

*In Solidarity,*

The Alliance of Documentary Editors
